Details

A Linux server configured as an SSL LAMP with Joomla (version 2.x or 3.x) and the stable release of the VirtueMart ecommerce and online store software installed & running with Joomla Plugins enabled, and a yearly SSL Cert for your domain or sales site.

phpMyAdmin and other web-based systems are pre-installed to provide you with full system and server remote access, should the Admin functions inside Joomlaand VirtueMart not be sufficient for site operations.

This is a "managed" VPS product, so updates to software packages are installed by Network Presence SysAdmins in cooperation with the customer.

You have 24x7 Ticketed and 8am to 8pm Live SysAdmin Support included.
